

There are a lot of people in our community that listen to K-Love. There have been several occasions where another station overpowered K-Love and it was such a disappointment to not be able to hear my music. My 4 and 7 year-old know and love K-Love and I never have to worry about what they might hear. Some stations in the Denver area are downright vulgar. We must protect this family radio station!!!!

Many children in my Sunday school class listen to K-Love as well. In this day and age it is so uplifting to hear this.
